Turning ideas into smart, decentralized applications

PROJECTS

[Resume Builder – Resume & Portfolio Builder](#)

[Live Demo](#) | [GitHub](#)

Stack: Next.js, TypeScript, Firebase, Tailwind CSS, React Hook Form, NextAuth.js

- Built an AI-assisted resume/portfolio builder with live preview, ATS score, GitHub import, and template PDF export. Deployed on Vercel with responsive dark mode.

[OneKey-Deploy –One Command Deployment CLI](#)

[GitHub](#)

Stack: Node.js · JavaScript · Commander.js

- Designed and developed a secure, transparent, and tamper-proof voting platform for elections.
- Wrote the Entire CLI in under 300 Lines of clean ,Documented code.

[Evote – Blockchain-Based Voting System](#)

Stack: Flutter, Dart, Firebase, Blockchain

- Designed and developed a secure, transparent, and tamper-proof voting platform for elections.
- Integrated Firebase authentication and blockchain ledger for immutable vote storage and verification.

[Career Finder App](#)

Stack: Flutter,Dart,Firebase

- Created a command-line tool that detects frameworks (React, Next.js, static HTML) and deploys them to Vercel, Netlify using a single command.
- Implemented an interactive UI, integrated Firebase for authentication and data storage, and provided personalized career suggestions through structured questionnaires.

[Focus Sprints – Productivity Chrome Extension](#)

[Live Demo](#) | [GitHub](#)

Stack: JavaScript, Chrome APIs, Chart.js, Local Storage

- Developed a focus timer with distraction site blocking, progress tracking, and daily/7-day analytics charts.
- Added psychological nudges, gamification with reward points, and automatic resets to boost user productivity.

[Personal Portfolio Website](#)

[Live Demo](#) | [GitHub](#)

Stack: Next.js · JavaScript/TypeScript · CSS · AOS · LocalStorage / Theme Toggle

- Built a **personal portfolio website** using Next.js, showcasing projects, skills, and theme toggle functionality.
- Structured the site with modular React components (Hero, ProjectsGrid, ThemeToggle, etc.).
- Integrated **AOS (Animate On Scroll)** for scroll-based animations and polished UI effects.

EDUCATION

ZHCET, AMU, B. Tech. Computer Engineering | Aligarh, India

GPA: 8.1 / 10.0

2024-28

SKILLS

App Development (Flutter),Java,Firebase,MongoDB,Solidity,SQL,Git, REST APIs , ReactJS,NodeJS,JavaScript.

University Polytechnic, AMU,Diploma ,Computer Engineering | Aligarh, India

GPA: 9.97 / 10.0

2021-24

SKILLS

UI/UX Design ,Microprocessor, Git/GitHub, VS Code, Postman, C-language, HTML, CSS,Firebase.

VOLUNTEERING

Mentor/Speaker -Flutter Workshop,TPO Auditorium,ZHCET

2024,2025

- Organised and led a **3-Day hands-on Flutter workshop** covering setup,widgets,layouts,routing and state management.
- Trained participants through interactive sessions,enabling them to build their first Flutter app from scratch.

Developer – AMU

2024 - 2025

- Worked as an **App Developer** for **Google Developer Groups on Campus (GDGC)**, ZHCET, a non-profit organization, contributing to community-driven projects and events.
- Served as a **Web Developer** for the **CodeChef Chapter**, building and maintaining web solutions to support coding competitions and community engagement.
- Participated in major hackathons including **Smart India Hackathon (SIH) 2024**, **AMU Hack 4.0**, and **Raptors Hackathon (July 2025)**, developing innovative solutions through teamwork, rapid prototyping, and problem-solving under tight deadlines.
